

## TIGERS WHO MAY BE IN THE LINE-UP AGAINST AMES NEXT SATURDAY

Top Row, Left to Right: Collins, Edwards, Berry, Stephens; Second Row, Ewing, Viner, Slusher; Third Row, Rider, Captain Hamilton, Miller, Morris; Bottom Row, Bass, Coach Schulte Schroeder.

## SPORT

The Varsity had a light signal practice last night. The men who had played in the game against the Aggies Saturday were too badly bruised to do any scrimmaging, so Coach Schulte had them run signals while the second squad scrimmaged with the freshmen. The Varsity will probably be pitted against the freshmen tonight.

The defeat of the Tigers last Saturday has not discouraged the members of the squad, who feel as if the game was lost through breaks rather than through having met a superior team. All of the men came out of the game in good shape except for a few bruises and will meet Ames Saturday with a full line-up of regulars. The line, reported only last week to be the weakest in recent Missouri football history, proved to the satisfaction of the rooters that it is developing power and with time will be the equal of other Missouri teams. The backfield, with Morris playing a steady game at quarterback, has plenty of speed and power to worry any of the teams it will meet.

The team will leave Columbia Thursday night for Des Moines, arriving there early Friday morning. The Ames team has not played a hard game this season and no comparison of their strength can be made. Their only game was a 7 to 0 victory over Coe. They did not play Saturday and will have a two-weeks' rest in preparation for the Tigers. Among the old Ames men back are Captain Denfield and Aldrich, the two men who starred in the scoreless game with the Tigers on Rollins field last year.

## CITY AND CAMPUS

## The War of 1812

The battle of New Orleans was fought 15 days after peace was declared—so slow were methods of communication.

The world moves quickly. The United States is a big country. Every part of it must know what every other part is doing.

Western Union Service overcomes the old-time barrier of distance. Fifty thousand employees and one-million-five-hundred-thousand miles of wire are at the call of every citizen of the United States—in twenty-six thousand cities, towns and hamlets.
